

JOURNEY

PROVEN STRENGTHS

- **Data Engineering**
AWS Glue, PySpark, Airflow — 3.5 yrs at scale
- **Impact metrics**
40% faster ETL · 60% less QA · 25% cost cut
- **Systems**
gRPC microservices, Docker, Prometheus
- **LISA latency win**
2,200ms → 150ms on speech pipeline

GROWING INTO

- **AI / ML Engineering**
LLM orchestration, RAG pipelines, MLOps
- **Research depth**
Hallucination & factuality verification (thesis)
- **Multilingual NLP**
Speech-to-speech, wait-k streaming
- **Cloud-native ML**
Model deployment & monitoring at scale

NEXT MOVES

- **Now (2025)**
Land Werkstudent / intern role — 6 mo commitment
- **2026**
Convert to full-time Junior DE/ML in Germany
- **Gap to close**
More ML production evidence + German B2
- **Edge**
Publication · Spot Award · IELTS 7 — surface these
